Abhishek Chaudhuri

North Brunswick, NJ | achaudhuri2011@yahoo.com | (732) 585-0818 | https://www.linkedin.com/in/abhiek187

Experience

January 2019 – Present | Portfolio Website | Project

· Created a single-page, responsive website with 5 components using React and TypeScript
· Incorporated Bootstrap, SCSS, and 20+ automated tests to improve the design and functionality of the website
· Showcased the top 6 projects, emphasizing tools used and links to preview the project

February 2021 – April 2021 | How to Stock | Project

· Created a full-stack web application with 10+ views using Django as the back-end and HTML, CSS, and JS for the front-end
· Imported a financial REST API to filter stocks, view a company's profile, and display historical stock data
· Predicted stock prices for 1-month and 1-year investments using probability, statistics, and linear regression
· Facilitated users new to the stock market by providing tips and definitions about 20+ financial terms

September 2020 – February 2021 | Mini Brain Age | Project

· Trained a neural network that recognizes 60,000 handwritten digits using the MNIST dataset
· Compressed the model by 80% into a TensorFlow Lite file that fits onto an Android device
· Designed a game where players solve math problems quickly by drawing the answer on a canvas

June 2020 – August 2020 | Global Technology Intern | Prudential Financial, Remote

· Developed a sign language interpreter iOS app in Core ML using image classification
· Trained a model in Create ML to interpret sign language using 3500 images
· Assembled over 2000 lines of feedback about Prudential's culture and products using web scrapers in Python

September 2017 – April 2020 | N2E President & Instructor | Rutgers, New Brunswick NJ

· Established a syllabus that coincided with introductory C++ classes
· Promoted the club through social media and increased attendance by 50%
· Recruited 11 qualified instructors and managed workshop timings
· Received a Leadership & Service Award for leading the N2E division

June 2019 – August 2019 | Mobile Engineering Intern | Prudential Financial, Newark NJ

· Developed a low-cost, high-fidelity indoor navigation system in Swift using a static map image
· Incorporated fixed waypoints and graphing algorithms to determine one's current location and routing in buildings
· Maintained indoor data in JSON through a web app (front-end: HTML, CSS, & JavaScript, back-end: Python)

Education

Master of Science | Rutgers University – New Brunswick

· Concentration: Software Engineering
· Technical Paper: Fully-Connected Neural Network in Verilog

Bachelor of Science | Rutgers University – New Brunswick

· Major: Computer Engineering, Minor: Computer Science
· Graduated Summa Cum Laude

Skills

Proficient: iOS Development (Swift), Android Development (Java, Kotlin), Web Development (HTML, CSS, JavaScript, TypeScript, React), Engineering, Python, Git, Unix

Knowledgeable: Machine Learning (PyTorch, Core ML), C, C++, Unity (C#), Firebase, Django, Flutter, Test Automation, Agile Methodologies

Familiar: Node.js, Flask, MongoDB, SQL, Keras
